

Public Safety Solutions

Strengthen Frontline Security & Evidence Collection

Transcend's DrivePro body cameras deliver advanced security with high-resolution video, wide-angle lenses, and night vision, capturing every detail in any lighting. Featuring a quick wake-up function that syncs group recording, GPS tracking, G-sensors, Wi-Fi for easy uploads, and SDK support for custom integration, these cameras offer seamless, high-quality, on-the-go security for modern needs.

High-Quality Components

High-quality CMOS & storage, providing superior and reliable vision/data performance.

Advanced Reliability

The IP-rated dustproof and waterproof rugged design, along with U.S. military-grade shock resistance, ensures enhanced durability for your device.

Toolbox/SDK/API

In addition to providing a Windows UI toolbox, Transcend offers an SDK/API for easier system integration.
